LETTER OF RECOMMENDATION

To whom it may concern:

It is my pleasure to write this letter of recommendation on behalf of Rowena Viktoria Lee in her pursuit of employment. For 2 months, Rowena worked for C'monde Studios during an internship this year. I was immensely pleased with her level of talent, her diligent efforts and her willingness to work on any project.

Rowena came to C'monde with an open mind and eagerness to learn. She has taken the initiative to gain hands-on work, which has made her very efficient and productive. I have found her to be a mature, professional employee who is responsible and dependable. During the course of her internship, she has grown immensely both as an employee and as an individual, becoming more and more confident and vocal in expressing her works and communicating with others. She is detail-oriented, patient and able to multi-task. Rowena handled her position with ease and was able to assist other employees as needed.

As an industrial designer with over 20 years of work experience, I feel it is important for designers to be able to listen and be open to change. Rowena has done a great job of being patient in producing options and changes as we request new and different things from her. She manages to stay organized and manage time in a way that allows for creativity, but also productivity.

Overall, I feel Rowena would be an asset to any team. She can work well independently, but is open to working in a team and accepts constructive criticism and feedback very well. Her friendly personality and sense of humor makes her a joy to work with. I can confidently say that Rowena will be a valuable asset to any organization or company that she is involved with.

If you need more details, please call me at +852 9158 7315 or e-mail me at johan@cmonde.com.

Sincerely,

Johan Persson
Founder / Creative Director
C'monde Studios Limited

Internship record

To whom it may concern,

From the 16th of January until the 24th of March-2017, Rowena Lee had an internship position at Splitvision design AB, in Stockholm.

Rowena has participated in various projects in our daily design work. In these projects she contributed in a proficient manner with analysis, creative ideas, sketches, renderings, computer works and 3D models. The projects mentioned are confidential until public and are therefore not mentioned by brand name.

Project: Multifunctional clip with living hinge for medical device.

Tasks: Conceptualize detail based on functionality studies related to purpose and function, understand production demands, material and tooling.

Project: Modular component on large machinery.

Tasks: Present sketches and handling flow charts related to functional demands and brand identity. Work with unique component semiotics connected to brand identity.

Project: Packaging in paper and pulp / bagasse.

Tasks: Present brand unique concepts for several price-points and production techniques.

Project: Wearables (with technology).

Tasks: Study and present concepts based on user scenarios/analysis. Several different applications, materials and production methods.

Rowena was appreciated among the employees for her reliability and pleasant personality.

With best regards,

Jonas Fritzdorf
Creative director, Industrial designer MFA, SID
